Commentary on the results for the half-year ended 31 December 2012

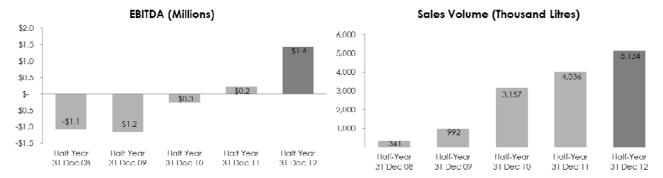

Highlights for H1 FY13

- Revenue increased 36% to \$11 million
- NPAT increased 736% to \$0.5m
- Total volume increased by 27%
- New contract brewing customers secured
- New products launched to market
- Brewhouse implementation complete

During the first half of FY13 the Company has achieved solid growth in sales, production volumes and earnings, further diversified its customer base and passed some important milestones in its capital expansion project.

Carton and keg sales for the half-year exceeded 5.1 million litres representing an increase of 27% over the corresponding period in FY12 (4.0 million litres). Revenue increased by 36% over the same period to just under \$11m. This growth in revenue per litre is a result of a changing sales mix, including a higher proportion of cider, craft beer and higher alcohol beer during the half-year in comparison to the prior year comparative period.

The Company's EBITDA of \$1.4m and NPAT of \$0.5m was the result of two strong consecutive quarters and was achieved despite a number of shutdowns associated with the implementation of the capital expansion project.

The growth in sales is partially attributable to the Company's continued support of Woolworths' exclusive brands strategy. During the first quarter Gage Roads released the Sail and Anchor 345mL craft range including *Lark's Foot Golden Ale, Monkey's Fist Pale Ale, Cat's Shank Kölsch* and *Boa's Bind Amber Ale.*

Contract brewed products for other customers including Matso's Broome Brewery have increased 72% in volume over the previous corresponding period and represent an important component of the Company's growth strategy.

During the half-year Gage Roads was pleased to welcome a number of new customers, including McLaren Vale Beer Company, Duckstein Brewing Margaret River and the Australian Marketing Division of San Miguel Yamamura. The addition of these customers is testament to Gage Roads' focus on delivering high quality craft beer. Production for these customers will commence in March 2013.

Gage Roads' proprietary brands have also performed strongly, increasing 44% over the same period last year. This growth was primarily driven by Atomic Pale Ale, Gage Pils 3.5% and Sleeping Giant IPA, which was awarded the trophy for best bottled ale at the 2012 Perth Royal Beer Awards. The growth in Gage Roads' proprietary volumes was also supported during the half-year by the launch of two limited release products in the 640mL bottle format, *Pumpkin Ale* and *The Convict*. Production of these limited release, high quality craft products showcases Gage Roads' passion for producing authentic craft beers and its participation in the expanding craft beer market segment.

This half-year saw the completion of a significant portion of the capital expansion program with the remaining items expecting to be completed by the end of March 2013. Elements of the program already completed and commissioned include an upgrade of the bottling line to 300bpm, upgrades to utilities including a new boiler, refrigeration plant and water infrastructure, the addition of six 100hL fermentation tanks, three bright beer tanks and the automated CombiCube B brewhouse. The 100hL brewhouse was manufactured and installed by leading international brewery engineering company Krones of Germany and along with the other completed elements has been successfully commissioned and is currently in full operation.

The capital expansion team is also working on the installation of a new filtration system, reverse osmosis plant, yeast management system, CIP (Clean-in-Place) system and the automation of our new

fermentation tank farm. The Company expects these items to be commissioned by the end of March 2013

As previously disclosed, the capital expansion program's cost to complete was initially estimated at \$12.4m, which was to be financed via a \$9.6m ANZ debt facility with the remainder being funded through operating cash surpluses. The debt facility is now fully drawn and the Company has been able to self-fund the balance of the program since April 2012.

As the program approaches completion, implementation cost escalations as well as the addition of previously unbudgeted items indicate a projected total cost to complete of circa \$16.8m. This \$4.4m overrun principally relates to escalations in contractor costs (both rates and time) as well as ancillary projects that arose during installation and commissioning, which occurred while the existing facility was also operating at full capacity. This additional expenditure is expected to be fully covered by operating cash surpluses as the expansion program concludes in coming months.

Gage Roads has worked closely with suppliers and customers to align operating cash inflows with investing cash outflows relating to the expansion program. As part of this process, the Company negotiated favourable terms with suppliers and customers and has been able to produce at higher volumes during the half-year in order to fund capital payments.

The capital expansion project was designed to deliver two outcomes, an increase of overall production capacity to 3 million cartons per annum and a reduction in variable operating costs per carton of circa 50%. As the expansion program does not conclude until the latter months of FY13 the Company is expecting to realise the full benefits in FY14 and FY15.

GRB 4-Year Growth Plan (FY12,13,14,15)			
Production	Triple production capacity to 3 million cartons by FY15		
Costs	Reduce operating costs per case by 50% by FY15		
Sales	 Continue partnering the growth of Woolworths' exclusive brands strategy. Become Australia's # 1 contract craft brewery. Increase draught sales. 		
Productivity	Building a Better Place to Work: implementing 5S, improving work environments and amenities, focusing on core values and cultural change to improve behaviours and improve productivity.		

In the upcoming months the Company will continue to deliver on its 4 year plan commitments. This will include the delivery of our expanded brewing capacity, growing our strategic partnership with Woolworths, growing other contract brewing and draught opportunities and maintaining our focus on reducing operating costs whilst improving productivity.

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF GAGE ROADS BREWING CO. LIMITED.

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Gage Roads Brewing Co. Limited, which comprises the statement of financial position as at 31 December 2012, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising summary of significant accounting policies and other explanatory information, and the directors' declaration.

Directors' Responsibility for the Half-Year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the Company's financial position as at 31 December 2012 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Gage Roads Brewing Co. Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Gage Roads Brewing Co. Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Gage Roads Brewing Co. Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Company's financial position as at 31 December 2012 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.

Note 1 : Summary of significant accounting policies

(a) Basis of preparation of half-year financial statements

The general purpose financial report for the half-year reporting period ended 31 December 2012 has been prepared in accordance with Australian Accounting Standard 134 *Interim Financial Reporting* and the Corporations Act 2001.

The historical cost basis has been used as the basis of preparation.

This half-year financial report does not include all the notes of the type normally included in the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Company as the full financial report. Accordingly, this half-year financial report is to be read in conjunction with the annual financial report for the year ended 30 June 2012 and any public announcements made by Gage Roads Brewing Co Limited during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The same accounting policies and methods of computation have generally been followed in this halfyear financial report as compared with the most recent annual financial report, unless otherwise stated.

New accounting standards and interpretations

In the half-year ended 31 December 2012, the Company has reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for annual reporting periods beginning on or after 1 July 2012.

It has been determined by the Company that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on its business and, therefore, no change is necessary to Company accounting policies.

The Company has also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the half-year ended 31 December 2012. As a result of this review the Directors have determined that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on its business and, therefore, no change is necessary to Company accounting policies.

(b) Going concern

At 31 December 2012, the Company had a working capital deficiency of \$4,642,347. Gage Roads has worked closely with its suppliers and customers to align the operating cashflows with the investing cashflows relating to the expansion program. As part of this process, the Company negotiated favourable terms with suppliers and customers. Included in the current liability balance is a \$2.15m final payment (due in September 2013) to a key capital equipment supplier which had become current during the half-year ended 31 December 2012.

The Company's cashflow forecasts support the going concern assumption through the ordinary course of business. These forecasts are supported by Woolworths' 1 million carton per annum contractual commitment, its own propriertary beer sales and other contract brewing contracts.

has been recognised	9,957,337	10,969,933
Deferred tax asset @ 30%	2,987,201	3,290,980

Deferred tax assets and liabilities have been brought to account as at 31 December 2012 after considering the level of tax losses carried forward and available to the Company against future taxable profits and the probability within the future that taxable profits will be available against which the benefit can be claimed. The Company believes that due to the growth of Gage Roads' proprietary brands and contract brew brands it is probable that sufficient future taxable profits will be available against which unused tax losses can be utilised.

The Company has investigated the availability of the carry forward tax losses in respect of Divisions 165, 166 and 175 of the Income Tax Assessment Act 1997 (being the satisfaction of the continuity of ownership tests, or alternatively the satisfaction of the same business test and their non preclusion by the income injection provisions) and has formed the opinion that it is more likely than not that the Company will not be prevented from deducting all of its accumulated losses as at 31 December 2012 by virtue of these divisions of the Income Tax Assessment Act 1997.

(c) Significant Estimates & Judgements

As disclosed to the ASX in May 2009, in conjunction with Woolworths Limited acquiring a 25% interest in Gage Roads Brewing, the Company also entered into a contractual Supply Agreement with Woolworths Limited to contract brew products for a three year Initial Term and two year Extended Term. Subsequently Deferred Tax Assets were recognised on Gage Roads' financial statements at 31 December 2009.

These Deferred Tax Assets are recognised as being recoverable based on internal sales budgets and profit projections for the period of the supply agreements extended term. Additional Deferred Tax Assets have been recognised in respect of losses incurred subsequent to the Woolworths Limited investment. These losses are recognised as assets on the basis that the Supply Agreement will be renewed and extended beyond the terms of the current Supply Agreement. Should this Agreement not be continued beyond its Extended Term, these balances may not be recoverable at the amounts recognised in the Statement of Financial Position.

Note 9 : Contingencies

(a) Contingent liabilities and assets

There are no material contingent liabilities or contingent assets of the Company at 31 December 2012.

Note 10 : Events occurring after reporting date

No matter or circumstance has arisen since 31 December 2012, which has significantly affected, or may significantly affect, the operations of the Company, the result of those operations, or the state of affairs of the Company in subsequent financial years.

Note 11 : Segment Reporting

Management has determined that the company has two operating segments, being proprietary brand brewing and contract brewing. As the processes from production to retailing are almost identical for both products, and they exhibit similar economic characteristics, they meet the AASB 8 criteria for aggregation.

Due to the extensive overlapping of the two operating segments, the Board monitors the company based on overall Net Profit level along with production volumes. This internal reporting framework is considered the most relevant to assist the chief operating decision maker with making decisions regarding the company and its operating activities.

There are no discrete corporate activities to the segments that would require reconciliation between segment expenses and total expenses.

	31 December 2012 \$	31 December 2011 \$

Net profit (loss) before tax	817,487	(87,329)
Reportable segment assets	28,520,100	20,644,856

Woolworths Limited is a major customer of the company as defined by AASB 8, as revenue from that customer exceeds 10% of total revenue from external sources. The Company sells into the Woolworth's national distribution network and also to other national and international outlets.
